

Food Chain Trumps

Instructions:

- Cut out the cards below and shuffle.
- The beginning player places down a card that shows a producer in a food chain
- The player who has a suitable primary consumer places their card down next, followed by a secondary consumer.
- At any suitable time, a player can place down the appropriate biodiversity disruptor card
- The biodiversity supporter card will trump this disruptor card. The player who puts this card down will win the round.
