

# Role cards

Secretly assign each student a role card. In order for the activity to work, they must refrain from sharing their role with their team members.

## **Role: Lead**

Lead the group by gathering the materials and keeping track of the time. You can volunteer to present at the end of the build.

## **Role: Calm**

You are blindfolded during this activity, but you can talk your group throughout the process. Keep the group calm and on task.

## **Role: Silent**

You cannot speak during the activity, but you are able to use both hands and participate in the build as much as possible.

## **Role: Fairness**

Ensure everyone in your group gets a fair and equal chance to participate. You can only add to the build **once**.

## **Role: Artist**

You are good at drawing, and you can draw a template or diagram to help visualise your team members suggestions before building.

## **Role: Inspire**

Motivate all team members with positive encouragement. You are unable to build as you must place your hands behind your back.
